

# CONVERT YOUR MINI TO SUPER SPECIFICATION

WITH A PERFORMANCE ECU RE-MAP FROM TUNE-TEC

tunetec  
automotive solutions

## ↙ MINI ONE

Convert your standard Mini One to Cooper specification with a performance ECU Re-map from Tune-tec. Your car will be diagnostically checked before to ensure there are no prior faults and then upgraded with new ECU code. Expect excellent performance gains from this super little car and an even more pleasurable driving experience.

**Tune-tec modified KW: 91\***    **Factory Standard KW: 66**

## ↙ MINI ONE DIESEL

Give your standard Mini One Diesel that extra power it deserves with a performance ECU Re-map from Tune-tec. Your car will be diagnostically checked before to ensure there are no prior faults and then upgraded with new ECU code. We can give this super little car that extra power it needs but still keeping it economical and super exciting to drive.

**Tune-tec modified KW: 84\***    **Factory Standard KW: 55**

## ↙ MINI COOPER

A super little upgrade to make acceleration even sharper.

**Tune-tec modified KW: 97\***    **Factory Standard KW: 85**

## ↙ MINI COOPER S

With upgraded pulleys we can boost up to 210 BHP (Additional charge to re-map)

**Tune-tec modified KW: 138\***    **Factory Standard KW: 125**
